Notes to Applicant

1. In accordance with paragraphs 186 and 187 of the National Planning Policy Framework the Council has worked in a positive and pro-active way and has granted planning permission.

Proposal

This is a re-submission of a previous scheme for the erection of a two storey pitched roof extension at the rear of the property with a single storey extension and a detached pitched roof outbuilding. The previous application showed the two storey element of the scheme stepped in by 600mm but this application seeks to bring the wall out flush with the single storey extension.

The application is being presented to Planning Committee as the Applicant is a Member of Staff.

Site Description

The property is semi-detached and is finished in part render and part brick work under a tiled roof. The existing store and outside toilet will be demolished to make way for the extension. Along the boundary of the adjacent property, 8 Fremantle Road there is a single storey extension which projects from the rear of the property. The mono pitch of the roof slopes in towards number 8 and therefore the highest part of the roof is the Applicant's side. Part of the proposed outbuilding will be built alongside this extension.

Planning Policy Context

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that applications are determined in accordance with the development plan unless material considerations indicate otherwise.

The development plan for Taunton Deane comprises the Taunton Deane Core Strategy (2012), saved policies of the Taunton Deane Local Plan (2004), the Taunton Town Centre Area Action Plan (2008), Somerset Minerals Local Plan (2015), and Somerset Waste Core Strategy (2013).

Relevant policies of the development plan are listed below. Policies from emerging plans are also listed; these are a material consideration.

DM1 - General requirements,
H17 - Extensions to dwellings,

Local finance considerations

Not payable in this instance.

Determining issues and considerations

The proposed two storey part of the extension is set away from the boundary with the adjacent neighbour and therefore, there is no impact in terms of loss of light on this property, particularly given the orientation. Whilst the single storey element is proposed alongside the boundary it is set off the boundary in order that no encroachment should occur. Part of the proposed outbuilding will be screened by the extension already along the boundary at the neighbouring property. The design and neighbour impact are both considered to comply with policy and therefore the scheme is considered to be acceptable and is recommended for approval.

In preparing this report the planning officer has considered fully the implications and requirements of the Human Rights Act 1998.
