

# Taunton Deane Borough Council

**Executive – 8 July 2015**

**Performance Monitoring – Quarter 4 Outturn 2014/15 (to 31 March 2015)**

**Report of the Corporate Strategy and Performance Manager**

(This matter is the responsibility of Executive Councillor Richard Parrish)

## **IMPORTANT NOTE –**

In order for the information within this report to be debated in the most efficient manner at the Executive Committee, we would encourage Members who have queries with any aspect of the report to contact the appropriate officer named at the end of this report before the meeting so that information can be collated in advance or relevant officers can be invited to the meeting.

## **1. Executive Summary**

As part of the Council's performance framework, summary reports on performance against the Council's key priorities, finance and corporate health indicators key are provided to Corporate Scrutiny and the Executive on a quarterly basis.

The purpose of these reports is to provide members with an overview of performance. Detailed reports on progress against key programmes and projects which support the corporate priorities (e.g. Growth, Joint Management and Shared Services, HRA Business Plan etc) are available separately should Members wish to obtain more detail in these areas.

In total, 54 measures are currently reported within these quarterly reports.

This report, which covers the period to 31<sup>st</sup> March 2015, has identified **three measures** where at the end of March 2015, performance varied significantly from the target set. These are discussed within the body of this report.

Whilst this report references certain financial performance measures, detail of the Council's financial position at the end of March 2015 is contained within the Financial Outturn report which is on the same agenda as this item.

## **2. Feedback from Scrutiny Committee**

2.1 This report was considered by the Corporate Scrutiny Committee at their meeting of 25<sup>th</sup> June 2015.

2.2 Questions were asked in particular in relation to whether welfare reform was impacting upon housing rent arrears and concerning corporate complaints. Both of these items have been added to the Scrutiny forward plan.

- 2.3 There was preference for future reports to include a 'direction of travel' indicator within Appendix A to show whether performance was improving or getting worse between quarters. This will be included within future quarterly reports.
- 2.4 The committee were asked to consider how they wished to receive reports going forward. Whether, for example, they wished to move to an exception reporting style, whereby only areas that were significantly off-track were reported and perhaps managers for those areas be invited to the committee. Members of Scrutiny expressed their strong preference to retain the present style and format of the quarterly performance reports rather than move to reporting by exception as they felt having the full scorecard of measures provided Members with a more rounded view of performance (good and bad) across the organisation.

### 3. The Corporate Performance Scorecard

3.1 The TDBC Corporate Scorecard at **Appendix A** contains details of Quarter 4 2014/15 outturn position against the Council's key priorities, finance and corporate health indicators. In total there are **54** indicators which are reported against. It should be stressed that this information is at 31<sup>st</sup> March 2015.

#### 3.2 Scorecard explanation / key:

In addition to a brief description of the indicator, each measure is given a visual RAG (Red, Amber and Green) status based upon progress. These statuses are explained below.

| Key          |                                                                                                                                        |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Green</b> | Target or milestone met or progress is on track (where action extends beyond 31 <sup>st</sup> March 2015)                              |
| <b>Amber</b> | Minor delay or variance from target or uncertainty (in the case of project milestones which extend beyond 31 <sup>st</sup> March 2015) |
| <b>Red</b>   | Significant delay or significant variance from target.                                                                                 |

#### 3.3 Q4 – High level Performance Summary

| Total No. of measures | <b>Green</b> | <b>Amber</b> | <b>Red</b> |
|-----------------------|--------------|--------------|------------|
| <b>54*</b>            | <b>35</b>    | <b>16</b>    | <b>3</b>   |

*\* Were 55 measures being reported at Q1. One measure has been deleted during the year (family focus 3.1.3) which was reported until Q2.*

### 3.4 The **3 red** indicators relate to:

- **Licensing** (ref 2.1.3 page 3 Appendix A) –The target for the year was to process 95% of licensing applications within 14 days of receipt. The actual performance was 81% of applications being processed within 14 days of receipt.

Performance for the year was impacted by a combination of a member of staff going on maternity leave and delays in recruitment, a higher than normal number of applications, many of which required additional officer time and an increase in the number of enquiries.

To improve performance the licensing team have taken on two temporary members of staff (one covering West Somerset exclusively) - have isolated the backlog and are working through it and are training a member of staff to be able to deal with different application types to widen their skills range.

- **Complaints** (ref 6.2.4 page 7 Appendix A) – The target was for 100% of complaints to be given a response (not simply an acknowledgement) within 10 working days. The average for the year has been 78.5% of complaints having been given a response within 10 working days. This compares to 77% in 2013/14.

This measure is quite crude in as far as it only measures speed of response rather than quality.

It is perhaps of some reassurance, that despite not hitting our locally set target, overall our handling of complaints appears reasonable in so far as relatively few have been escalated by the customer to the Ombudsman by comparison to neighbouring authorities. This can be evidenced by the annual Local Government Ombudsman (LGO) report which is published both on the Ombudsman's website and the Council's own website. During 2014 16 complaints were referred to the LGO for TDBC, 47 for Mendip, 21 for Sedgemoor and 24 for South Somerset.

During 2015/16 the ambition is to:

- Introduce a new complaints database to enable a better corporate overview of complaints received by the Council. This went live in April 2015;
  - Review the performance measure, with a suggestion that we use 20 working days as a realistic timescale for a full response to be made to Corporate complaints, which fits in with the timescale for responding to freedom of Information requests and are comparable complexity.
  - Refresh our complaints literature and website information;
  - Re-communicate good practice in relation to complaint handling across the organisation.
- **Corporate Health and Safety** (ref 6.7 page 8 Appendix A) – three performance measures were introduced for the first time in 2014/15 relating to internal health and safety.

Although this area has been scored as 'red' (off target) this is fact a good news story. Lots of important activity have taken place and this is more a case that our target setting, in hindsight, being a little unrealistic.

Reports of incidents and near misses have increased significantly. This is due to the extensive training which has been carried out this year having had the desired effect of making staff more aware of health and safety issues and the importance of recording even quite minor matters, in order that the Council has a more comprehensive view of these risks. Although many of these were very minor in nature they have identified some issues which could have led to bigger problems and have enabled these to be addressed. This is the first year we have introduced these key performance indicators. Targets will be reviewed for 2015/16 and will be informed by our learning from 2014/15, which has provided us with a very good baseline going forward.

3.5 The Council's performance is reviewed by the Joint Management Team (JMT) each quarter; most recently on 28<sup>th</sup> April 2015. Any areas requiring attention are highlighted and appropriate requests made of managers, as necessary, in order to address any performance issues.

3.6 Summary of Performance against Corporate Aims, Managing Finances and Corporate Health.

The table below provides a quick means of identifying how we are performing against each corporate aim and against our finance and corporate health indicators. **Appendix A** provides the detail behind these numbers and alerts.

| Section                                                                     | Number of measures | Green     | Amber     | Red      |
|-----------------------------------------------------------------------------|--------------------|-----------|-----------|----------|
| <b>Corporate Aim 1 – Quality Sustainable Growth &amp; Development</b>       | <b>9</b>           | 4         | 5         | 0        |
| <b>Corporate Aim 2 – A Vibrant Economic Environment</b>                     | <b>7</b>           | 4         | 2         | 1        |
| <b>Corporate Aim 3 – A Vibrant Social, Cultural and Leisure Environment</b> | <b>8</b>           | 6         | 2         | 0        |
| <b>Corporate Aim 4 – A Transformed Council</b>                              | <b>4</b>           | 3         | 1         | 0        |
| <b>Managing Finances</b>                                                    | <b>14</b>          | 12        | 2         | 0        |
| <b>Corporate Health</b>                                                     | <b>12</b>          | 6         | 4         | 2        |
| <b>Totals</b>                                                               | <b>54</b>          | <b>35</b> | <b>16</b> | <b>3</b> |

**4. Legal Comments**

4.1 There are no legal comments associated with this report.

## **5. Links to Corporate Aims**

- 5.1 This report highlights progress against delivery of the corporate priorities.

## **6. Environmental and Community Safety Implications**

- 6.1 References 3.3 and 3.31 of the Corporate Scorecard include measures relating to fly-tipping and parks and open spaces.

## **7. Equalities Impact**

- 7.1 Equalities impact has been considered in relation to this report. It has been concluded that since this is an update report only an Equalities Impact Assessment is not required.

## **8. Risk Management**

- 8.1 The key risk is that the Council fails to manage its performance and use the subsequent information to inform decisions and produce improved services for customers. The mitigation for this will be the continued strong leadership from Lead Members and JMT to ensure that performance management remains a priority.

## **9. Partnership Implications**

- 9.1 A number of corporate aims and objectives reported within the corporate scorecard are delivered in partnership with other organisations such as Southwest One. At a service delivery level, each of the major partnerships the Council are involved with have their own governance and performance reporting mechanisms and are subject to separate scrutiny.

## **10. Recommendations**

It is recommended that:-

- The Executive review the Council's outturn performance and highlight any areas of particular concern.

| 1.1.4                                                                                           | Maintain 5 year supply of ready to develop housing sites                                       | Annual Strategic Housing Land Availability Assessment (2014) continuing to identify 5 year supply.                                                                                                                                                                                                                                             | The SHLAA has identified a five year deliverable supply of 6.31 years when planning for a five percent buffer of housing land and 5.56 years when planning for a twenty per cent buffer. This figure assumes that historic shortfall is spread evenly over the remaining years of the Plan period and the shortfall is included after the five per cent buffer has been applied. A further calculation has been incorporated in line with the National Planning Practice Guidance where the shortfall is met upfront and the percentage buffer is applied after incorporating the shortfall. This calculation identified 5.75 years of housing land with five per cent buffer and 5.03 years supply with a twenty per cent buffer. In all scenarios the Council is able to demonstrate a five year land supply. | Green  |

| 3.1                                                                                                              | Priority Areas Strategy (PAS)              | Delivey of the PAS action plan to reduce deprivation in Taunton Deane. Measures - successful achievement of the 7 outcomes.                                                                                                                                                                                                                    | Monitoring of the PAS Action Plan has always proved difficult given that the various projects are being managed by different partners. These projects are all based within our disadvantaged communities, with the exception of Village Agents. The Taunton Deane Strategic Partnership (TDSP) has agreed to shift the emphasis of monitoring to the Area Coordinators who will produce and monitor a plan for each community (see 3.1.1 below). This will be reported to the TDSP.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Amber   |
| 3.1.1                                                                                                            | Halcon One Team                            | Continue to reduce crime, ASB, Children Centre Referrals, Housing Evictions.                                                                                                                                                                                                                                                                   | Crime has continued to drop in 2014 (a further 22%). One Team working now being established in three areas and each Area Co-ordinator has been requested to produce a plan for the area to tackle the key issues. Crime and ASB will be included in these as part of the requirements of the Police Innovation bid.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Green   |
| 3.1.2                                                                                                            | Health & Wellbeing Strategy                | Delivery of the TDBC Health and Wellbeing Strategy and action plan.                                                                                                                                                                                                                                                                            | <p>Good progress is being made towards the delivery of the TD H&amp;W Action Plan. There was a very successful promotion/expansion of the Archie Project (an inter-generational dementia project) on 5th Feb at the County Ground. We are also on course to become a Dementia Friendly Council.</p> <p>Our remaining action is to train staff form two service areas by end April '15. We are currently discussing further related actions for 15/16. The Council has recently awarded grants (from a number of sources) that are geared to address priorities within the H&amp;W Action Plan, including improving educational attainment (partnerships with various schools in disadvantaged communities), financial inclusion and mental health (among others).</p> <p>We are working with SCC to deliver training to Tier 4 managers to ensure that they are sighted on relevant health (and other) statistics to inform service planning. We hope to deliver elements of this to Councillors as part of new member induction.</p> | Green   |
| 3.1.3                                                                                                            | 'Family Focus' (Troubled Families) project | <p>Government target is 262 families to be attached to project by March 2015.</p> <p>Project updates circulated to Members every two months and detailed scorecards reported to Family Focus Strategic Group and Taunton Deane Partnership.</p>                                                                                                | With effect from October 2014 this project was no longer managed by TDBC. Responsibility passed to SCC. However, at the point of ceasing our management of this this project TDBC had attached 290 families to the project (against a target of 262 by end March 2015) only 6 months into the financial year, far exceeding expectations.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | DELETED |

| 5.1.4                                                                                                                          | e) Council Tax Support                                             | <b>TDBC's portion</b> of the budget : Within £25k of budget = Green, £25k-£50k = Amber and over £50k = Red                                                                                                                                    | The purpose of this measure is to provide confidence over the accuracy of budget forecasts for this discretionary, demand-led provision of financial assistance to council tax payers. The budget estimate for the cost to TDBC of Council Tax Support in 2014/15 is £5,938,290 (TDBC share £573,397), and the actual cost of support provided in the year is £5,685,860 (TDBC share £549,023) which is £252,430 (TDBC share £24,374) below the original estimate. TDBC's proportion of CTS costs in 2014/15 is 9.66% based on proportion of total Council Tax charges of all preceptors.                                                                                                                                                                                                                                                                                                                                                                                                                                                      | Green  |
| 5.1.5                                                                                                                          | f) Business Rates Net rate yield                                   | Target: Net Rates Payable per NNDR1 = £39,533,144 (before appeals and bad debts).<br>>£39.5m = Green, £39.0m - £39.5m = Amber, <£39.0m = Red                                                                                                  | The purpose of this measure is to provide confidence over the accuracy of budget forecasts for this potentially volatile funding stream. Whilst net rates payable has remained above the benchmark set for this measure and is therefore Green in terms of total Rateable Values in the Borough, the 'true' outturn position is significantly below budgeted expectations due to a major increase in appeals. Further information is included in the Financial Outturn Report.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Green  |

| 6.7                                  | To raise the standard of Health & Safety knowledge & performance within the organisation. | <p>Targets</p> <ol style="list-style-type: none"> <li>1. increase accident reporting by 10% on previous year.</li> <li>2. Carry out accident investigations within 2 weeks.</li> <li>3. Carry out 5 audits per quarter.</li> <li>4. Ensure 100% of audit reports completed within 2 weeks.</li> </ol> | <p>1. 70% increased in total accidents reported in comparison with 2013-14.</p> <p>2. 92% investigations completed within 2 weeks. 1 detailed and lengthy investigation at the DLO took up a lot of time and impacted on the speed of completing other investigations.</p> <p>3. 8 audits carried out during 2014-15 - in carrying out training and accident investigations best practice and guidance has been able to be provided there and then and has reduced the anticipated need for as many audits as envisaged at the start of the year. The audits undertaken have been based on areas of highest perceived risk.</p> <p>4. 85% completed to date, 1 audit has outstanding elements which have been delayed due to transformation within the service area and therefore the report has been delayed also.</p> <p>Although this area has been scored as 'red' (off target) this is fact a good news story, with lots of important activity have taken place and is more a case that our target setting was a little unrealistic. Reports of incidents and near misses have increased significantly. This is due to the extensive training which has been carried out this year having had the desired effect of making staff more aware of health and safety issues and the importance of recording even quite minor matters, in order that the Council has a more comprehensive view of these risks. Although many of these were very minor in nature they have identified some issues which could have lead to bigger problems and have enabled them to be addressed. This is the first year we have introduced these key performance indicators. Targets will reviewed for 2015/16.</p> | Red    |
