#### TAUNTON DEANE BOROUGH COUNCIL

### **EXECUTIVE 7<sup>th</sup> FEBRUARY 2007**

### REPORT OF THE FINANCIAL SERVICES MANAGER

This matter is the responsibility of Executive Councillor Williams, Leader of the Council

#### **CAPITAL PROGRAMME 2007/08 onwards**

### **EXECUTIVE SUMMARY**

This report details the proposed General Fund (GF) and Housing Revenue Account (HRA) capital programmes for the period 2007/08 to 2010/11.

For the General Fund the estimated unallocated resources available are £17k. Proposed new schemes amount to £145k, but self-funding, leaving the same £17k of unallocated capital resources available for future schemes.

For all Housing schemes, both GF and HRA, the estimated resources available for 2007/08 amount to £6,593k. The proposed capital programme for 2007/08 amounts to £6,402k. Members should note it is proposed that we carry forward the remaining £191k to support the HRA Decent Homes capital programme into the future.

#### 1 INTRODUCTION

1.1 The purpose of this report is to consider the proposed GF Capital Programme as outlined in Appendix A and to consider the proposed HRA Capital Programme as outlined in Appendix B. Following consideration by the Executive the programme is due to be considered by Full Council on 20<sup>th</sup> February.

### 2 CAPITAL RESOURCES

- 2.1 All capital expenditure has to be financed from borrowing, capital receipts or other revenue funds.
- 2.2 The current position on the amount of <u>unallocated</u> resources available for both the GF and Housing is set out below:

|                 | 2007/08<br>General Fund<br>£000 | 2007/08<br>Housing<br>£000 |
|-----------------|---------------------------------|----------------------------|
| Current Balance | 17                              | 6,593                      |

2.3 The General Fund figure shown above reflects the uncommitted balance on capital reserves. Resources for Housing include the Major Repairs Allowance, supported borrowing, usable capital receipts and any revenue contributions to capital.

- 2.4 The figure for the HRA is much higher as, unlike the GF, the HRA receives a direct grant from central Government (the Major Repairs Allowance) towards capital expenditure. This comprises around 55% of all resources available to finance Housing schemes.
- 2.5 It should be noted that for both the GF and the HRA no Prudential borrowing is assumed in the table above. For Housing the only borrowing that is included in the resources is that borrowing for which central Government will provide revenue support via subsidy to meet debt costs. This is known as "supported borrowing" and amounts to £624k in 2007/08.
- 2.6 Members should note that at the time of writing this report the Department of Communities and Local Government had yet to announce the final supported borrowing and disabled facilities grants levels. Early indications are that we can expect the amounts included above, but ministers will not decide the final allocation until late February 2007. Once this announcement has been made, and if the allocations are greatly different from our assumptions, then Members will be informed through the usual mechanism.
- 2.7 If necessary, any new loan debt will only be taken after full consideration of the Authority's treasury management strategy and the indicators prescribed by the Prudential Code.
- 2.8 The funding for the programmes in 2008/09 to 2010/11 is anticipated to be broadly similar to 2007/08, although it is not possible at this stage to accurately identify these. However, when details are known the programme will be amended to reflect the actual level of funding available.

### 3 GENERAL FUND CAPITAL PROGRAMME

- 3.1 The current approved capital programme totals £12.18m. This includes any slippage in schemes, which have been rolled forward from 2005/06 and any subsequent supplementary estimates that have been approved by Full Council.
- 3.2 The programme also includes the GF Housing capital programme, a summary of which is shown below:

|                         | 2006/07 | 2007/08 | 2008/09 | Post 2009 |
|-------------------------|---------|---------|---------|-----------|
|                         | £000    | £000    | £000    | £000      |
| Renovation Grants       | 456     | 335     | 335     | 335       |
| Disabled Facilities     | 350     | 350     | 350     | 350       |
| Grants (Private Sector) |         |         |         |           |
| Grants to Housing       | 930     | 809     | 809     | 809       |
| Associations            |         |         |         |           |
| Single Housing          | 44      | 0       | 0       | 0         |
| Investment Pot Bids     |         |         |         |           |
| Total                   | 1,780   | 1,494   | 1,494   | 1,494     |

Further details on the proposed GF Housing capital programme are shown in Appendix C.

3.3 Due to the limited amount of resource available, as stated in 2.2 above, no recurring or new schemes are being considered unless they are self-financing or financed from external sources.

### 3.4 New Schemes

The Executive propose to make the following new schemes a priority for the new Programme:

| Portfolio/Scheme                             | Amount (£) |
|--|------------|
| Economic Dev, Property & Tourism             |            |
| Grass Cutting Equipment and Small Plant (DLO | 35,400     |
| Reserves Funding)                            |            |
| Vehicle Acquisitions (DLO Reserves Funding)  | 109,500    |
| Total  | 144,900    |

- 3.5 In supporting the schemes outlined in paragraph 3.4, there is no impact on the unallocated resource available due to the finance being available from DLO reserves.
- 3.6 Future General Fund projects can be undertaken when resources become available. This could be through either borrowing, revenue contributions or through the sale of assets.
- 3.7 The detailed GF capital programme, which includes these proposed schemes now totals £12.18m and is shown in Appendix A.

### 4. HOUSING REVENUE ACCOUNT CAPITAL PROGRAMME

- 4.1 The table in paragraph 2.2 shows the level of resources available to finance the proposed Housing capital programme for 2007/08, and as mentioned above, includes no unsupported borrowing. By limiting the borrowing necessary for the programme to the amount of supported borrowing ensures that the HRA will not have to meet any unsupported borrowing costs. Included within this sum is a contribution to capital from the HRA of £1,508k and estimated useable capital receipts from the sale of Council Houses of £575k (32 sales are estimated in 2007/08).
- 4.2 The General Fund Housing Programme, as detailed in paragraph 3.2 requires the use of £1.494m of these resources, leaving £5.099m available for the HRA capital programme.
- 4.3 The proposed HRA Capital Programme for 2007/08, as detailed in Appendix B, and accompanied by the commentary in Appendix C, projects a programme of £4.908m. Members should note this

programme will leave resources available to carry forward of £191k. These resources will be used to support the future Decent Homes Programme.

- 4.4 The Housing Review Panel and the Review Board considered the Draft Housing Capital Programme at their meetings on 23<sup>rd</sup> and 25<sup>th</sup> January respectively and made no formal recommendations.
- 4.5 For both the GF and HRA any new schemes, which emerge during the lifespan of the programmes, will be funded through existing unallocated resources or through new resources, such as new capital receipts. Bids for additional schemes to those set out above should be made through the Executive, using the PAR format.

### 5 RECOMMENDATIONS

5.1 The Executive is requested to recommend the General Fund and Housing Revenue Account Capital Programmes to Full Council for approval.

### **APPENDIX C**

### 1. Housing Capital Programme Commentary

1.1 The Capital Programme projected for 2007/08 is based on a realistic assessment of the resources that are available. The programme is designed to achieve an investment strategy to meet the demands for the improvement of public and private housing and to make a significant contribution to Joint Commissioning for the provision of new homes. The programme follows the priorities outlined in our housing strategy and HRA business plan, which in turn properly considers the links to the overall strategy of the Council.

### 2. **Comments**

2.1 The comments focus on the main items of expenditure as set out in Appendix A.

### 2.2 Local Authority Owned Stock

- 2.3 The future major investment into the Housing Stock will concentrate on delivering 'Decent Homes'.
- 2.4 <u>Delivering Decent Homes (HP 4, Continued Investment in Management and Maintenance of Housing Stock)</u>

£4,277,700

In July 2001 the Council received guidance on the Government target to 'ensure that all social housing meets set standards of decency by 2010 by reducing the number of households living in social housing that does not meet these standards'. There are four criteria used to determine a "decent home" and each property has to satisfy these in order to be classified as decent.

The four criteria are:-

- A. It meets the current statutory minimum standard for housing
- B. It is in a reasonable state of repair
- C. It has reasonably modern facilities and services
- D. Provides a reasonable degree of thermal comfort

Predominantly, this work will concentrate on upgrading kitchens and bathrooms, re-roofing, provision of double glazed PVCu replacement windows, replacement of external doors (with improved security where appropriate), upgrading central heating systems and testing electrical installations, ensuring compliance the latest IEE regulations.

2.5 <u>Door Entry Systems (HP 4 Continued Investment in Management and Maintenance of Housing Stock)</u>
Historically door entry systems have been installed in Sheltered Housing schemes. In future we will be concentrating on blocks of flats vulnerable to Anti-Social

£20,000

Behaviour.

| 2.6  | Soundproofing Work (HP 4 Continued Investment in Management and Maintenance of Housing Stock) The programme, which started with the Duplex flats at Holway, Taunton in 1997 has been extended to other flats with timber floors where sound transmission problems exist.   | £20,000  |
|------|--|----------|
| 2.7  | New Housing Management IT System (HP 4 Continued Investment in Management and Maintenance of Housing Stock) This project commenced in 2006/07 and its implementation will be complete during 2007/08.  | £80,000  |
| 2.8  | Communal TV Aerial Systems In line with the Government requirements, as existing communal T.V. aerial systems become time expired, these will be replaced with systems capable of receiving a digital signal.  | £20,000  |
| 2.9  | Aids and Adaptations (inc parking) (HP 5 Continued Support for Vulnerable Groups) Continued assistance to provide essential modifications to Council dwellings including small car parking improvements for disabled tenants.  | £200,000 |
| 2.10 | DDA Work In order to ensure that buildings used by the public comply with the Disability Discriminations Act, certain modifications are necessary. This includes sheltered scheme meeting halls and shops in our ownership.  | £20,000  |
| 2.11 | Asbestos Investigations (HP 4 Continued Investment in Management and Maintenance of Housing Stock) Surveys are currently being carried out to help build and maintain a database identifying where asbestos—based products exist.  | £20,000  |
| 2.12 | Tenants Improvements and the provision of Community Alarm Systems This budget allows continued investment into the Community Alarm Service, assisting elderly, infirm and vulnerable people to remain in their homes. It also compensates tenants for improvements they have undertaken under the Rights to Compensation legislation when they vacate their homes. | £50,000  |
| 2.13 | Disabled Facilities Grants (HRA Stock) (HP 5 Continued Support for Vulnerable Groups)  Demand continues for this service which is also a statutory duty. Recommend continuing the current investment level.  | £200,000 |

### 3. Private Sector Renewal

### 3.1 Grants to Registered Social Landlords (HP 1)

£809,000

The current building programme (with reserve schemes) involves provision of accommodation over the three-year period, but we need to increase the number of units being provided to 197 per annum according to the ARK report 2005.

### 3.2 Private Sector Renewal Grants (HP 3)

£335,000

Continued investment into the private sector for grant aid. Work has begun on providing loans under the Regulatory Reform of Grants through the Wessex Reinvestment Trust. The development of a Home Improvement Agency continues. Councillors will be kept informed of progress and further information will be provided verbally to Members at the meeting.

### 3.3 Disabled Facilities Grants – Private Sector (HP 5)

£350,000

This remains an important investment as evidenced by the 2002 Private Sector House Condition Survey. As with Council DFG's there is a statutory obligation to provide this service.
