## Progress at 24 February 2015

Work	Planned date	Complete?	Comments
<p><b>2014-15 Accounts Audit Plan</b> We are required to issue a detailed accounts audit plan to the Council setting out our proposed approach in order to give an opinion on the Council's 2014-15 financial statements.</p>	May 2015	Not yet due	<p>Will be presented to members at the next Corporate Governance Committee meeting.</p> <p>There is additional fee of £900 in respect of work on material business rates balances. This additional work was necessary as auditors are no longer required to carry out work to certify NDR3 claims. The additional fee is 50% of the average fee previously charged for NDR3 certifications for district councils and has been approved by the Audit Commission. This means the audit fee will be £67,761 for 2014/15 instead of that previously communicated of £66,861. This is consistent with the change in the audit fee for 2013/14 final accounts. This will be discussed again with in the Audit Plan at the next Committee meeting.</p>
<p><b>Interim accounts audit</b> Our interim fieldwork visit includes:</p> <ul style="list-style-type: none"> <li>• updating our review of the Council's control environment</li> <li>• updating our understanding of financial systems</li> <li>• review of Internal Audit reports on core financial systems</li> <li>• early work on emerging accounting issues</li> <li>• early substantive testing</li> <li>• initial risk assessment to support the Value for Money conclusion.</li> </ul>	January to April 2015	Ongoing	<p>We are currently working with the Council to complete our interim work. The results of this will be communicated in the Audit Plan that will be presented at the next Committee meeting.</p>

# Rising to the challenge

## Grant Thornton

Our national report, Rising to the Challenge, the Evolution of Local Government, was published in December and is available at: <http://www.grant-thornton.co.uk/en/Publications/2014/Rising-to-the-challenge---The-evolution-of-local-government/>

This is the fourth in our series of annual reports on the financial health of local government. Like previous reports, it covers key indicators of financial performance, strategic financial planning, financial governance and financial control. It also includes case studies of best practice and a comparison to the NHS. This year it has been extended to use benchmarking information on savings plans and budget performance.

The overall message is a positive one. What stands out is how well local authorities have navigated the first period of austerity in the face of ever increasing funding, demographic and other challenges. Many authorities are forecasting financial resilience confidently in their medium term financial strategy. This reflects an evolution in financial management that would have been difficult to envisage in 2010. However, there remains much to be achieved if the sector is to become sustainable in the long term, and authorities should consider if their:

- medium- to long-term strategy redefines the role of the authority creatively
- operational environment will adapt, working in partnership with other authorities and local organisations
- strategy looks beyond the traditional two- to three-year resource planning horizon
- organisational culture is aligned to where the authority needs to be in the medium to long term
- senior leadership teams – both officers and members – have the necessary skills and capacity to ensure delivery against the medium-term challenges
- corporate governance arrangements ensure effective oversight and scrutiny of the organisation as it adapts to the challenges it faces.

The importance of these actions will be magnified if local government devolves further, particularly in relation to fiscal devolution. The new-found confidence of local government in responding to the medium-term challenges will be tested significantly by the second phase of austerity.

# 2020 Vision

## Grant Thornton

Our national report '2020 Vision' is available at: <http://www.grant-thornton.co.uk/en/Publications/2014/2020-Vision-Exploring-finance-and-policy-futures-for-English-local-government-as-a-starting-point-for-discussion/>

In a time of unprecedented challenge for English local government, how can the sector develop towards 2020 if it is to have a sustainable future? Our latest report provides a thorough analysis of the current political and economic context, explores a range of potential policies and outcomes, and suggests several scenarios to facilitate an open debate on the future for the sector.

Produced in collaboration with the University of Birmingham's Institute for Local Government Studies (INLOGOV), our report suggests that fundamental changes to local government are both operationally necessary and constitutionally inevitable, for the sector to remain relevant by 2020. The report offers a thorough analysis of the current political and economic context and explores a range of potential future policies and outcomes that English local government will need to adopt and strive towards as they seek to adapt and overcome these challenges.

Placed in the context of enhanced devolution, following the Scottish independence referendum, 2020 Vision maintains a wary eye fixed on the 2015/16 Spending Round and looks ahead to the life time of the next government. It highlights that the economic and financial situation remains increasingly untenable, with an expanding North/South divide arising from the pattern of funding reductions and economic growth.

It highlights that English local authorities continue to face unprecedented challenges, relating to the pressures of austerity and central government funding reductions, and demographic and technological change. Our report highlights the vital role of a successful local government sector and encourages it to think hard about how it will cope in the future.

Informed by the views of a broad range of local authority leaders, chief executives and other sector stakeholders, the report offers a set of six forward-looking scenarios\* in which councils could be operating within by 2020. Though not mutually exclusive, we suggest that key stakeholders need to take urgent action to avoid a potential slow and painful demise for some councils by 2020.

Hard copies of our report are available from your Engagement Lead or Audit Manager.

# Local Government governance review 2015: All aboard

## Grant Thornton

Our national report 'Local Government Governance Review 2015: All aboard' is available at: <http://www.grant-thornton.co.uk/en/Publications/2015/Local-Government-Governance-review-2015-All-aboard1/>

Our fourth annual review into local authority governance aims to assist senior management and elected members of councils, fire & rescue authorities and police bodies to assess the strength of their governance arrangements and to prepare for the challenges ahead.

Focusing on three particular aspects of engagement – within the organisation, with partners and with the public – the key messages from the report are:

- while more than 90% of those surveyed felt their organisations encouraged well-managed risk taking and innovation, 43% felt scrutiny committees were not challenging enough about the way authorities do things
- 84% of respondents said their organisations are now using or considering alternative delivery models but only 45% feel that scrutiny of service quality is sufficiently challenging
- 49% said the transition to police and crime commissioners has not had a positive impact on local partnership working arrangements, while 42% saw no difference in local healthcare governance as a result of councils' new public health role
- annual accounts and annual governance statement continue to expand in length, making them even more challenging for the public to read and understand
- only 30% of cabinet positions in local authorities are held by women, while over half our survey say members do not adequately reflect the demographic profile of the local population.

Alongside the research findings, the report highlights examples of good practice and also poses a number of questions for management and members, to help them assess the strength of their current governance arrangements.

Hard copies of the report are also available from your Engagement Lead or Audit Manager.

## Earlier closure and audit of accounts

### Accounting and audit issues

DCLG is consulting on proposals to bring forward the audit deadline for 2017/18 to the end of July 2018. Although July 2018 is almost 4 years away, both local authorities and their auditors will have to make real changes in how they work to ensure they are 'match-fit' to achieve this deadline. This will require leadership from members and senior management. Local government accountants and their auditors should start working on this now.

Top tips for local authorities:

- make preparation of the draft accounts and your audit a priority, investing appropriate resources to make it happen
- make the year end as close to 'normal' as possible by carrying out key steps each and every month
- discuss potential issues openly with auditors as they arise throughout the year
- agree key milestones, deadlines and response times with your auditor
- agree exactly what working papers are required.

# Financial sustainability of local government

## Local government guidance

In November the National Audit Office published their report on the Financial Sustainability of Local Government.

The report concludes that Local authorities have coped well with reductions in government funding, but some groups of authorities are showing clear signs of financial stress. The Department for Communities and Local Government has a limited understanding of authorities' financial sustainability and the impacts of funding cuts on services, according to the National Audit Office.

The Government reduced its funding to local authorities by an estimated 28% in real terms between 2010-11 and 2014-15. Further planned cuts will bring the total reduction to 37% by 2015-16, excluding the Better Care Fund and public health grant. Although there have been no financial failures in local authorities in this period, a survey of local auditors shows that authorities are showing signs of financial pressure. Over a quarter of single tier and county councils had to make unplanned reductions in service spend to deliver their 2013-14 budgets. Auditors are increasingly concerned about local authorities' capacity to make further savings, with 52% of single tier and county councils not being well-placed to deliver their medium-term financial plans.

There are significant differences in the scale of funding reductions faced by different authorities. Authorities that depend most on government grant are the ones most affected by funding reductions and reforms. This was an outcome of policy decisions to tackle the fiscal deficit by reducing public spending, and for local authority funding to offer incentives for growth.

Local authorities have tried to protect spending on social care services. Other service areas such as housing services and culture and leisure services have seen larger reductions. While local authorities have tried to make savings through efficiencies rather than by reducing services, there is some evidence of reduction in service levels.

According to the NAO, however, the Department does not monitor in a coordinated way the impact of funding reductions on services, and relies on other departments and inspectorates to alert it to individual service failures. In consequence, the Department risks becoming aware of serious problems with the financial sustainability of local authorities only after they have occurred.

The Department's processes for assessing the capacity of authorities to absorb further funding reductions are also not sufficiently robust.
