3 Risk Assessment

Risk Matrix

Description	Likelihood	Impact	Overall
There is the general risk that if the Council fails to make good use of the management of risk processes it is likely to lead to uncontrolled exposure to many high level strategic and operational risks.	Feasible (3)	Major (4)	Medium (12)
The mitigation for this will be the identification and management of risk at all levels of the organisation and oversight of the key strategic risks facing the Council by Members and JMT.	Unlikely (2)	Significant (3)	Low (6)

4 Background and Full details of the Report

4.1 Taunton Deane Borough Council recognises the importance of effective identification, evaluation and management of all key strategic and operational risks. This is endorsed by the increased focus on the importance of Corporate Governance to public sector bodies. The Council also has a statutory responsibility to have in place arrangements for managing risks, as stated in the Accounts & Audit Regulations 2003:

"The relevant body shall be responsible for ensuring that the financial management of the body is adequate and effective and that the body has a sound system of internal control which facilitates the effective exercise of that body's functions and which includes the arrangements for the management of risk."

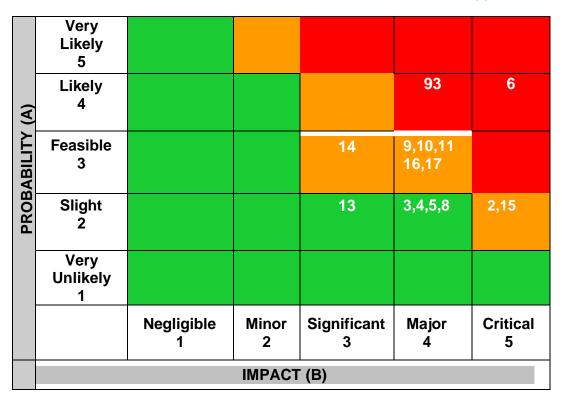

- 4.2 Risk management is a key element of the Council's overarching Governance arrangements.
- 4.3 The Corporate Risk Register is a 'live' document which highlights the key corporate risks facing the Council. The register is a joint one between Taunton Deane and West Somerset Council and is formally reviewed by JMT on a regular basis as part of the corporate performance review day. The last JMT review took place on **19th May 2017.**
- 4.4 These regular reviews ensure that new strategic-level risks can be recognised; continuing risks can be re-assessed in the light of management actions to date; and risks which are no longer considered important can be removed.
- 4.5 Risk registers exist with divisions, teams, projects and programmes. All these Risk Registers were updated in **December 2017**.
- 4.6 Risks which are managed at a corporate level are those which have a significant risk to the delivery of a corporate priority or which are cross-cutting risks that don't naturally sit with a single department or team. These risks have been identified and escalated from other risk registers within the Councils, officer concerns or from external sources.
- 4.7 There are currently **15** strategic risks identified and approved by JMT (**12** joint risks, **1** WSC risk and **2** TDBC specific risks).
- 4.8 Mitigating actions have continued to be delivered in respect of the various risks. These are set out in the risk register and will continue in order to manage down the risks to an acceptable level.
- 4.9 An extract of the corporate risk register is provided in Appendix A. Members are invited to review the register and consider whether all the appropriate Corporate Risks have been identified.
