This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Corporate Governance Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications www.grantthornton.co.uk ..

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at November 2018

2017/18 Audit

We have completed our audit of the Council's 2017/18 financial statements. Our audit opinion, including our value for money conclusion and certificate of audit closure was issued on the 31 July 2018.

We issued:

- An unqualified opinion on the Council's financial statements; and
- An unqualified value for money conclusion on the Council's arrangements to secure economy, efficiency and effectiveness in its use of resources.

We have issued all our deliverables for 2017/18 and have concluded our work on the 2017/18 financial year. Our Annual Audit Letter, summarising the outcomes of our audit was presented at the September Committee.

2018/19 Audit

We have begun our planning processes for the 2018/19 financial year audit.

Our detailed work and audit visits will begin later in the year and we will discuss the timing of these visits with management. In the meantime we will:

- continue to hold regular discussions with management to inform our risk assessment for the 2018/19 financial statements and value for money audits;
- review minutes and papers from key meetings; and
- continue to review relevant sector updates to ensure that we capture any emerging issues and consider these as part of audit plans.

Other areas

Certification of claims and returns

We are required to certify the Council's annual Housing Benefit Subsidy claim in accordance with procedures agreed with the Department for Work and Pensions. This certification work for the 2018/19 claim is underway, and will be concluded by the end of November 2018. A verbal update on this will be given at the meeting.

The results of the certification work are reported to you in our certification letter, which will come to the March Audit Committee.

Meetings

We met with Finance Officers in October as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Our Annual Accounts workshop is to take place early in the new year. We have invited key members of your finance team to this.

Sector Update

Local government finances are at a tipping point. Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider NHS and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

In good company: Latest trends in local authority trading companies

Our recent report looks at trends in LATC's (Local Government Authority Trading Companies). These deliver a wide range of services across the country and range from wholly owned companies to joint ventures, all within the public and private sector.

Outsourcing versus local authority trading companies

The rise of trading companies is, in part, due to the decline in popularity of outsourcing. The majority of outsourced contracts operate successfully, and continue to deliver significant savings. But recent high profile failures, problems with inflexible contracts and poor contract management mean that outsourcing has fallen out of favour. The days of large scale outsourcing of council services has gone.

Advantages of local authority trading companies

- Authorities can keep direct control over their providers
- Opportunities for any profits to be returned to the council
- Provides suitable opportunity to change the local authority terms and conditions, particularly with regard to pensions, can also bring significant reductions in the cost base of the service
- Having a separate company allows the authority to move away from the constraints of the councils decision making processes, becoming more agile and responsive to changes in demand or funding
- Wider powers to trade through the Localism act provide the company with the opportunity to win contracts elsewhere

Choosing the right company model

The most common company models adopted by councils are:

Wholly
owned

Joint
Ventures

Social
Enterprise

Wholly owned companies are common because they allow local authorities to retain the risk and reward. And governance is less complicated. Direct labour organisations such as Cormac and Oxford Direct Services have both transferred out in this way.

JVs have become increasingly popular as a means of leveraging growth. Pioneered by Norse, Corserv and Vertas organisations are developing the model. Alternatively, if there is a social motive rather than a profit one, the social enterprise model is the best option, as it can enable access to grant funding to drive growth.

Getting it right through effective governance

While there are pitfalls in establishing these companies, those that have got it right are: seizing the advantages of a more commercial mind-set, generating revenue, driving efficiencies and improving the quality of services. By developing effective governance they can be more flexible and grow business without micromanagement from the council.

LATC's need to adapt for the future

- LATC's must adapt to developments in the external environment
 - These include possible changes to the public procurement rules after Brexit and new local authority structures. Also responding to an increasingly crowded and competitive market where there could be more mergers and insolvencies.
- Authorities need to be open to different ways of doing things, driving further developments of new trading companies. Relieving pressures on councils to find the most efficient ways of doing more with less in today's austere climate.

Overall, joint ventures can be a viable alternative delivery model for local authorities. Our research indicates that the numbers of joint ventures will continue to rise, and in particular we expect to see others follow examples of successful public-public partnerships.
