5. **Motion – The Proposed Development at Firepool *the Old Cattle Market), Taunton**

Moved by Councillor Coles, seconded by Councillor Horsley.

“The Council notes that:-

- a) The Planning Committee rejected the Firepool Application submitted by the developers St Modwen on 31 August 2016 on the recommendation of the officers.
- b) It was defeated on the grounds that it did not meet the requirements of the Council's Core Strategy adopted in 2012 and on the grounds of poor design, failure to connect the station appropriately through the new Boulevard to Somerset Square and lack of activity for the waterfront onto the River Tone.
- c) It was also condemned for appearing like a “retail park” and the adverse effect it would have on the existing current town centre with Taunton Deane's consultants Savills estimating that it could take up to 20% of turnover away from the area.
- d) There was little evidence of any businesses truly interested in coming to Firepool from the hotel, entertainment, leisure and retail sectors at the meeting on 31 August 2016.
- e) The announcement on 19 September 2016 of the forthcoming closure of The County Stores in North Street, Taunton from January 2017.
- f) The announcement on 15 September 2016 made by the John Lewis Partnership that it was unlikely to open any further Waitrose Stores in

the foreseeable future including Firepool.

- g) The Government's confirmation on 18 September 2016 of its decision to proceed with the contract arrangements to build Hinkley C.

Council believes that Firepool is still the most important brownfield site available for the future development of Taunton and is anxious for new proposals to be brought forward at the earliest opportunity taking into account the latest circumstances set out above.

Council further believes that to attain our vision of becoming a forward thinking, progressive County Town and to meet its sustainable growth requirements to create prosperity and exploit our natural advantage of becoming the sub-regional capital of the South West we should:-

- (i) Seek a new development partner; or
- (ii) Should consider undertaking the project north of the River Tone ourselves;
- (iii) Should rapidly reconsider the mix of buildings and businesses to reflect the changing circumstances set out in the Notes above; and
- (iv) Any development should enhance the current offering of the town centre;
- (v) The development should be environmentally sustainable.
- (vi) The new proposals should reflect the strategic importance of the site as the new "Gateway to Taunton" from the Railway Station and be designed accordingly; and
- (vii) A fresh survey should immediately be undertaken of the businesses in the town centre and with the people of Taunton to ascertain their views on the above ideas.

The motion was put and was lost.
