

Somerset West and Taunton Council Risk and Opportunity Management Strategy

1.0 Background

- 1.1 This combined Risk and Opportunity Management Strategy details the Council's framework for managing business risk and opportunity. The Risk and Opportunity Management framework is the culture, processes and structures that are directed towards effective management of potential risks and opportunities that the council faces in delivering its objectives.
- 1.2 The definition of risk and risk management varies. ALARM (the Association of Local Authority Risk Managers) and the IIA (Institute of Internal Auditors) define Risk Management as follows:

ALARM

"Risk Management is the culture, processes and structures that are directed towards effective management of potential opportunities and threats to the organisation achieving its objectives".

IIA

"Risk is the possibility of an event occurring that will have an impact on the achievement of objectives. Risk Management is concerned with positive and negative aspects of risk. So as well as managing things that could have an adverse impact (downside risk) it also looks at potential benefits (upside risk)."

- 1.3 In organisations, Risk Management is central to good governance. Enterprise risk management (ERM) describes what happens when organisations put in place a structured, continuous process to identify, manage and respond to risk.
- 1.4 Developing and improving public services in the current challenging climate requires opportunities to be taken whilst managing the risks involved. Therefore Somerset West and Taunton Council's definition of Risk and Opportunity Management is:
- "The planned and systematic approach to identify, evaluate and manage the risks to, and opportunities for, to achievement of objectives"
- 1.5 The overall process of managing risk and opportunity can be divided into:
- The identification and analysis of risks and opportunities
 - Risk and opportunity management, which encompasses the planning, controlling and monitoring of the information derived from the risk and opportunity analysis.

2.0 Purpose, Aims and Objectives

- 2.1 The purpose of the strategy is to embed risk and opportunity management in the Authority by establishing a risk management framework, which provides:

- An efficient control environment
- The overt allocation of accountability for risk and opportunity management throughout the organisation
- A culture where officers and Members are able to be more creative and innovative in taking opportunities that benefit the Council and the District provided that there is clear analysis of the risks and a robust justification for the decision
- A well-established risk and opportunity assessment process which ensures that risks and opportunities are considered and managed as part of the decision making process
- Performance monitoring of risk and opportunity management activity
- Communications process to support risk and opportunity management
- A robust opinion for the Annual Governance Statement which comments of the adequacy of the Council's risk and opportunity management arrangements

2.2 The aim of the Somerset West and Taunton Council Risk and Opportunity Management Strategy is to adopt best practices in the identification and evaluation of risks and opportunities and the cost-effective control of risks to ensure that they are reduced to an acceptable level.

2.3 It is acknowledged that some risks will always exist and will never be eliminated. All employees must understand the nature of risk and accept responsibility for risks associated with their area of authority. The necessary support, assistance and commitment of senior management will be provided.

2.4 The risk and opportunity management objectives of the Council are to:

- Embed risk and opportunity management into the culture of the Council
- Fully incorporate risk and opportunity management as an integral part of corporate planning, business planning, project management and performance management
- Manage risk and opportunity in accordance with best practice and in particular in accordance with the requirements of the Annual Governance Statement
- Consider legal compliance as a minimum
- Prevent injury and damage and reduce the cost of risk
- Raise awareness of the need for risk and opportunity management

2.5 These objectives will be achieved by:

- Establishing a clear risk and opportunity management process that is communicated to all officers and Members
- Clearly define roles and responsibilities for risk and opportunity management
- Developing an action plan for embedding risk and opportunity management with tasks and milestones for monitoring progress against targets
- Providing risk and opportunity management training to officers and members

- Completing corporate and operational risk and opportunity management workshops to identify risks
- Conducting risk and opportunity management workshops to identify the risks and opportunities of any major projects
- Maintaining and reviewing a register of corporate, operational and project risks and opportunities and assigning ownership for each risk
- Ensuring that reports to the Executive, Scrutiny Committee, Audit, Governance and Standards Committee and Regulatory Committees (Planning and Licensing) include a risk and opportunity assessment
- Identifying risks and opportunities in relation to working in partnerships
- Ensuring that the Executive, Audit, Governance and Standards Committee and Scrutiny Committee receive quarterly reports on the key business risks and opportunities and takes action to ensure that business risks and opportunities are being actively managed

2.6 The following sections consider how the Council will implement the above objectives.

3.0 Roles and Responsibilities

3.1 The following groups and individuals have the following roles and responsibilities for risk and opportunity management within the Council.

3.2 The Audit, Governance and Standards Committee will approve this risk and opportunity management strategy and any subsequent revisions. They will also monitor the effective development and operation of risk and opportunity management within the Council by receiving quarterly progress reports on the Council's key business risks and opportunities, takes appropriate action to ensure that they are being actively managed and will consider the adequacy of the Council's risk and opportunity management arrangements as part of the Annual Governance Statement.

3.3 The Leadership Team is primarily responsible for setting the organisations risk appetite, identifying corporate strategic risks and opportunities, as well as being responsible for determining action on these risks and opportunities and delegating responsibility for the control of the risks and opportunities. The Leadership Team will also be responsible for monitoring the progress of managing risks and opportunities and will review quarterly reports which go to the Executive, Audit, Governance and Standard Committee and Scrutiny Committee.

3.4 The Executive will also monitor the effective development and operation of risk and opportunity management within the Council by receiving quarterly progress reports on the Council's key business risks and opportunities through the performance and risk report.

3.5 The Scrutiny Committee will also receive quarterly progress reports on the risks and opportunities through the performance and risk report. Any concerns or issues will be reported to the Cabinet and/or the Audit, Governance and Standards Committee.

- 3.6 The Executive Member for Corporate Resources will:
- Communicate the importance of risk and opportunity management to other Members
 - Act as a sounding board and provide a critical friend challenge to the risk and opportunity management process
- 3.7 Heads of Function/Service Managers will be responsible for:
- Leading the risk and opportunity management process within their services and ensuring that business plans include an annual assessment of key risks and opportunities
 - Identifying and managing significant operational risks by carrying out risk assessments with their teams as and when this becomes appropriate i.e. if making a significant change to service or undertaking a project
 - Developing actions to mitigate the risks identified, assigning responsibility for implementing controls and set realistic target dates for implementation
 - Ensuring that all risks are on the corporate risk register
 - Regularly reviewing risks associated with their service area(s) ensuring that the agreed actions and deadlines have been met
 - Ensuring that any briefing papers/ reports that they produce to make changes to their services will consider the associated risks and opportunities of any proposed course of action
- 3.8 The Director for Internal Resources (or her nominated deputy) is responsible for providing assurance to the Council through monitoring the implementation and effectiveness of this risk and opportunity management strategy and for reviewing compliance with mitigating controls introduced by the Service Managers. The Director for Internal Resources (or her nominated deputy) will comment upon the effectiveness of the risk and opportunity management process in work undertaken to support the Annual Governance Statement. The Director for Internal Resources (or her nominated deputy) will also chair the Council's Health & Safety Committee to ensure that any risks arising from the work of this group will be incorporated into the Corporate Risk Register.
- 3.9 The Health and Safety Committee is responsible for reviewing the measures taken to ensure the health and safety of all those who work in and visit the Council or may be affected by its activities - ensuring that people are not exposed to risks and that the risks are mitigated effectively. Where concerns are raised these will be escalated to the Health and Safety Officer and Leadership Team for action.
- 3.10 All employees need to have an awareness of risk and opportunity management and are responsible for ensuring that they manage risk effectively in their jobs and report hazards and risks to their Head of Function/Service Manager.
- 3.11 Anything commercial investment wise will go to the Commercial Investment Board

4.0 Strategic, Operational and Project Risks

4.1 Broadly speaking risks can be divided into three categories:

- Strategic – risks which need to be taken into account in judgements about the medium to long term goals and objectives of the Council whilst at the same time considering the opportunities; and
- Operational – risks and opportunities which managers will encounter in the daily course of their work.
- Project - risks and opportunities which will be encountered during specific tasks/projects being undertaken

4.2 Strategic Risks

4.2.1 The management of strategic risks and opportunities is a core responsibility of the Leadership Team. Strategic risk and opportunity assessments should be factored in to corporate and service planning.

4.2.2 The major categories of strategic risk are:

- Political – associated with failure to deliver either local or central government policy. The Council could also potentially be at risk from the actions of other agencies, other Councils, partner organisations, etc.
- Economic – affecting the ability of the council to meet its financial commitments. These include internal budgetary pressures as well as external factors affecting the economy as a whole.
- Social – relating to the effects of changes in demographic, residential or socioeconomic trends on the council's ability to deliver its objectives.
- Technological – associated with the capacity of the council to deal with the pace/scale of technological change, or its ability to use technology to address changing demands.
- Data Protection/Information Security – this includes the consequences of data/information transfer between the Council and other Bodies i.e. Government Connect, Partnership working, data collection, processing of data and data storage, etc.
- Legislative – associated with current or potential changes in national or European Law.
- Health and Safety – This includes all aspects of Health & Safety as well as the Corporate Manslaughter legislation
- Human Resource – Aging workforce

- Environmental – relating to the environmental consequences of progressing the council's strategic objectives (e.g. in terms of climate change including energy efficiency, pollution, recycling, landfill requirements, emissions, etc).
- Climate Change - affecting the ability of the council to meet its commitments in respect of climate change and meeting climate change targets
- Competitive – affecting the competitiveness of the service (in terms of cost or quality) and/or its ability to deliver Value for Money.
- Customer/Citizen – associated with failure to meet the current and changing needs and expectations of customers and citizens.
- Partnership – associated with working in partnership or sharing services with another local authority or partner
- Reputation – associated with the potential for negative publicity, public perception or uncontrollable events which have an adverse impact on the Council's reputation

4.3 Operational Risks

4.3.1 Risks which managers and staff will encounter in the daily course of their work. These may be:

- Professional – associated with the particular nature of each profession (e.g. housing service concerns as to the welfare of tenants).
- Financial – associated with financial planning and control and the adequacy of insurance cover.
- Legal – related to possible breaches of legislation.
- Personal Safety – related to lone working and the potential to encounter aggressive or confrontational people whilst carrying out their duties.
- Physical – related to fire, security, accident prevention and health and safety (e.g. hazards/risk associated with buildings, vehicles, plant and equipment, etc).
- Contractual – associated with the failure of contractors to deliver services or products to the agreed cost and specification.
- Technological – relating to reliance on operational equipment and the potential for technological failure (e.g. IT systems or equipment and machinery)

4.4 Project Risks

4.4.1 Risks which will be encountered during specific tasks/projects being undertaken. These may be:

- People – associated with whether we have the right people with the right skills involved in the task/project. This also concerns getting buy in from staff at all levels of the organisation, Members and potentially external stakeholders
- Technical – associated with the Councils reliance on the software provider to deliver what has been agreed in the contract and that they provide support for dealing with any systems problems or issues
- Cost – associated with the potential for the project to go over budget if the people and technical matters are not delivered as per the Business Case and PID
- Time – ensure that the right amount of time is allocated to the project as well as sufficient contingency as slippage can cause to project delay/failure and this can also have an impact on cost and quality
- Quality – depending on what goes into the project will determine the quality of the output

4.5 Opportunities

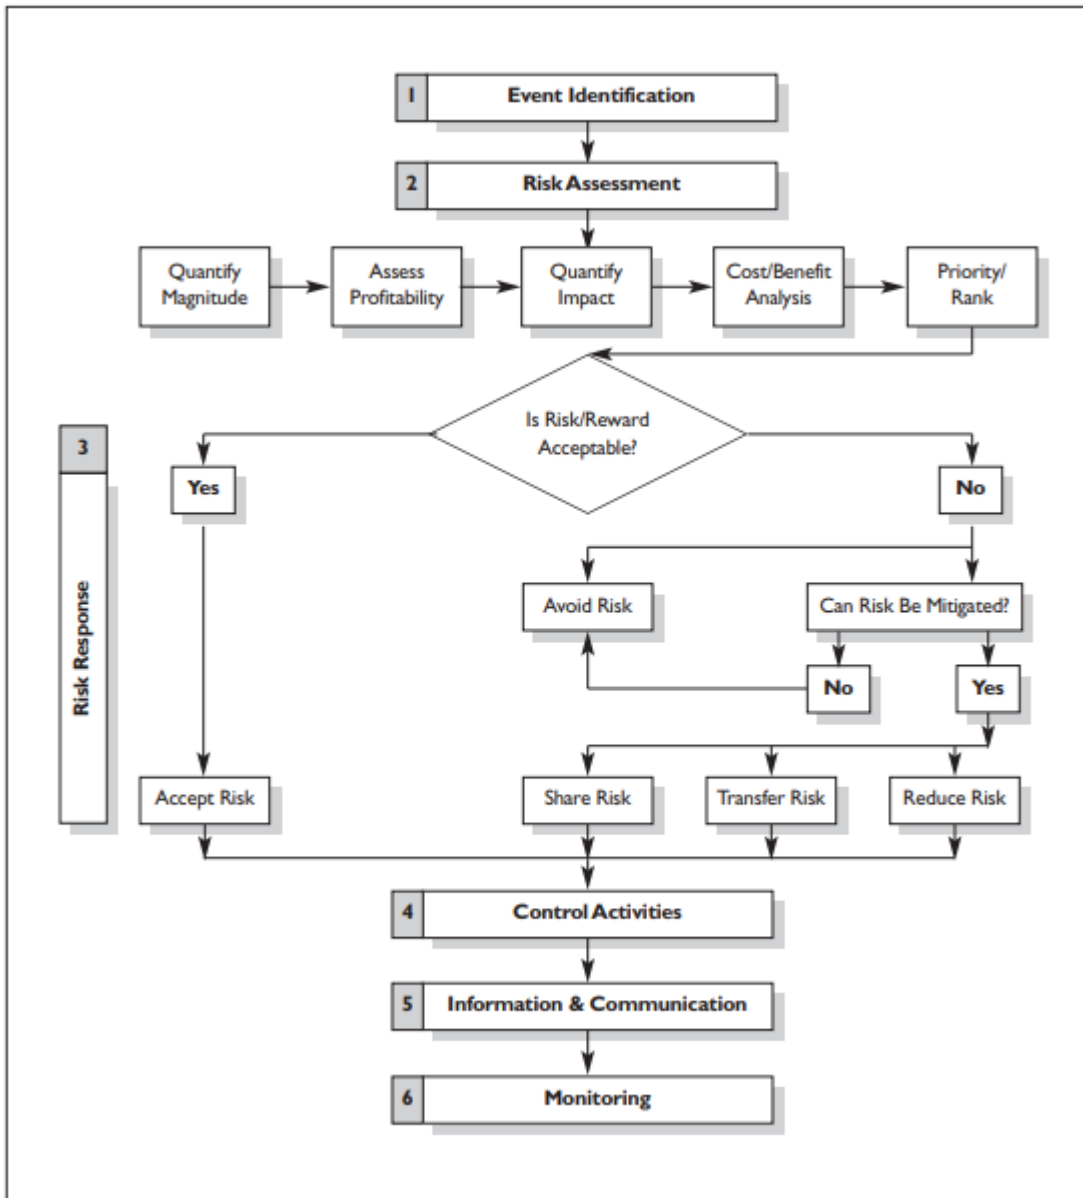

4.5.1 Opportunities are to be considered at the same time as the risks. Examples may include:

- Spend to save projects where the Council will benefit from reduced expenditure or increased income in the future
- Transformational change which will generate cost savings or an income stream
- Opportunities for great partnership working with our stakeholders or other local authorities
- Opportunities to streamline working processes
- Opportunities to boost the local economy
- Opportunities to deliver and improve housing within the District
- Opportunities to protect and enhance our environment and to reduce the impact of climate change
- Opportunities to make a difference to our communities and to empower them
- Delivery of the objectives in the Corporate Plan and Service Business Plans

4.6 The categories are neither prescriptive nor exhaustive. However, they should provide a framework for identifying and categorising a broad range of risks and opportunities for the Council as a whole, as well as service areas.

5.0 Risk Management Process

5.1 The four-step process below will cover all areas of risk and opportunity management including making strategic decisions, managing strategic, operational and project risks and opportunities.

Step 1 – Event Identification Risks and Opportunities

This is the identification of risks and opportunities and these include strategic, operational and project risks.

Step 2 – Risk Assessment

Once the risks and opportunities have been identified they then need to be assessed to consider the impact/severity and likelihood or any risks occurring and the potential benefits of any opportunities. Risk Impact/Severity The impact of the threat being realised is defined as:

	Score	Impact	Definition
Very Low	1	No impact	No notable impact identifiable
Low	2	Minor	Affects only one group of stakeholders, with minimum impact

	Score	Impact	Definition
			Organisationally localised, with position recoverable within the financial period. No external interest
Medium	3	Significant	Affects more than one group of stakeholders, with widespread but short-term impact. May attract the short-term attention of legislative/regulatory bodies
High	4	Major	Affects more than one group of stakeholders with widespread medium-term impact. Attracts the medium-term attention of legislative/regulatory bodies
Very High	5	Catastrophic	Medium to long term impact on performance and delivery of services. Affects all groups of stakeholders, with a long-term impact. National impact with the rapid intervention of legislative/regulatory bodies

Risk

Likelihood

The likelihood of the threat being realised is expressed on a scale of 1-5, using the definitions below:

	Score	Likelihood	Definition
Very Low	1	Rare	May occur on exceptional circumstances
Low	2	Possible	Risk may occur in the next 3 years
Medium	3	Likely	The risk is likely to occur more than once in the next 3 years
High	4	Almost Certain	The risk is likely to occur this year
Very High	5	Certain	The risk has occurred and will continue to do so without action being taken

The assessment process uses a 5x5 scoring matrix (see below) where the scores of impact x likelihood equal the total risk score. Risks scoring between 15 and 25 would be classed as high risk (red) with 25 being the biggest risk. Risks scoring between 5 and 12 would be classed as medium risk (amber) and risks scoring between 1 and 4 would be low risk (green). Risks that score 15 or above will be classed as the Council's key business risks and will be reported to the Audit, Governance and Standards Committee, Executive and Scrutiny Committee on a quarterly basis.

Impact/ Severity	5	10	15	20	25
	4	8	12	16	20
	3	6	9	12	15
	2	4	6	8	10
	1	2	3	4	5
	Likelihood				

Once analysed the risks need to be ranked and prioritised according to their likelihood and severity i.e. those scoring 25 will be at the top of the list and those scoring 1 will be at the bottom of the list.

The risks will then need to be considered in conjunction with any opportunities when making decisions.

Benefits of Opportunities

The assessment methods for determining the potential benefits of opportunities can include:

- Assessing the increased income/reduced expenditure from the innovation
- Quantifying the number of potential new customers
- Calculating the potential sales growth that could stem from capturing the opportunity
- Calculating the return on investment for a particular project and whether that is the level of return that the Council is looking for
- Considering the value added as a result of capitalising on the innovation e.g. the benefit to the community

Step 3 – Risk Response

This involves taking action to minimise the likelihood of a risk occurring and/or reducing the severity of the consequences should the risk occur. Actions need to be allocated to responsible officers along with a realistic target date for implementation.

Determine the best course of action for the Council. There are 5 key action strategies to managing risk:

Strategy	Action
Prevention	Terminate the risk*
Reduction	Treat the risk
Transference	Pass risk to a third party e.g. Insurance
Acceptance	Tolerate the risk
Contingency	Action plan implemented

* This can include carrying on the activity but modified so that the risk ends, or stopping the activity to end the risk.

Step 4 – Control Activities

Risk and Opportunity Management is dynamic and so the identification phase needs to be done continuously. It is also important to consider whether the nature of the risk or opportunity has changed over time – thereby completing the cycle.

Step 5 – Information and Communication

For the benefits of Risk and Opportunity Management to be realised, it is necessary for the process to be embedded in the culture and operations of the organisation.

Once the Strategy has been agreed it will be communicated to officers and Members.

The Director of Internal Operations (or her nominated deputy) will regularly raise awareness of Risk and Opportunity Management through the Officer and Member communications and through briefing sessions.

Step 6 - Monitoring

Progress in managing risks and opportunities will be monitored and reported so that losses are minimised and intended actions and opportunities are achieved.

Risk and Opportunity Management is an on-going process that should be constantly revisited and reviewed to ensure that new and emerging risks and opportunities are picked up and acted upon.

This Strategy will be reviewed and updated on an annual basis.
